

Seminario tematico 2016/2017

DESIGNING METROPOLITAN FUTURES

Università di Firenze, Dipartimento di Architettura, Regional Design Lab: Valeria Lingua (coordinatore), Giuseppe De Luca, Luca Di Figlia, Raffaella Fucile

Delft University of Technology (TU Delft), Chair of Spatial Planning & Strategy: Wil Zonneveld & Verena Balz

Munich University of Technology (TUM), Chair of Urban Development: Alain Thierstein, Lukas Gilliard,

Metropolitan City of Florence: Pietro Rubellini, Lara Fantoni, Nadia Bellomo

Obiettivi e Finalità

Il Seminario rappresenta un momento di avanzata riflessione sui temi della pianificazione di area vasta in area metropolitana. Attraverso la presentazione l'analisi degli strumenti di pianificazione spaziale e strategica di diverse città metropolitane europee, il seminario affronta il tema del rapporto tra pianificazione e riassetto istituzionale, con un focus sul ruolo dei processi di *Regional Design* e di *Visioning* nella governance di area vasta. Si tratta di verificare come queste pratiche, legate all'immaginazione di futuri possibili, possano essere uno strumento a supporto delle istituzioni per la pianificazione strategica e di area vasta.

Obiettivi e Finalità

Affrontando l'analisi di pratiche di scenario e *visioning* in contesti metropolitani italiani ed europei, con un approccio improntato dalle teorie del *Regional Design*, obiettivo del seminario è fornire agli studenti gli strumenti teorici e operativi utili a rispondere ad alcune questioni comuni al dibattito accademico e alle esigenze amministrative di governo del territorio, che riguardano:

- l'estensione delle pratiche cooperative (solo i confini amministrativi o aree-problema più ampie?) e la definizione di politiche pertinenti rispetto alle differenze locali
- le modalità di istituzionalizzazione della cooperazione (es. accordi di pianificazione e protocolli di intesa) e il rapporto con gli strumenti di pianificazione vigenti e in corso di variante a diversi stadi procedurali
- la gestione di possibili conflitti o difficoltà di alcune amministrazioni a interagire nell'arena cooperativa
- gli esiti in termini di strategie di area vasta condivise, attraverso un orientamento

progettuale del seminario teso a definire e rappresentare visioni di sviluppo che esulino dai confini amministrativi per abbracciare ambiti di coerenza più ampi.

Obiettivi formativi

Conoscenza e capacità di comprensione dei diversi strumenti di analisi e pianificazione territoriale e di area vasta.

Conoscenza e capacità di comprensione dei principi della progettazione territoriale e del *regional design*.

Analisi critica di contesti territoriali diversi per comprendere modalità e peculiarità istituzionali e nel progetto della *vision* strategica.

Modalità didattiche

Il seminario prevede l'attribuzione di 2 crediti formativi attraverso lo svolgimento di attività in aula e in sede di conferenza, oltre a una serie di attività svolte autonomamente tra studio, ricerca ed elaborazione.

Il programma è articolato sulle seguenti attività formative:

- una lezione di introduzione.
- due giornate seminariali di approfondimento di casi europei di riassetto istituzionale e pianificazione strategica e territoriale nell'ambito della Conferenza Internazionale "Shaping Regional Futures"
- presentazione di una sintesi del contesto e delle visioni in un caso studio scelto tra le città italiane ed europee di riferimento

Iscrizione

È richiesta una pre-iscrizione via e-mail

(valeria.lingua@unifi.it; indicare nell'oggetto "VISIONING SEMINAR")

Il seminario verrà attivato con un numero minimo di 10 partecipanti.

Programma del seminario

Il seminario si terrà nel secondo semestre dell'A.A. 2016-2017, nel mese di MAGGIO 2017, presso le sedi indicate nel programma.

All'inizio del seminario i partecipanti riceveranno il programma dettagliato degli incontri e la bibliografia di riferimento.

Conference programme

Day 1 – 18th May 2017

Metropolitan cities in the context of governance rescaling

8.30 – 9.00 **Participant registration**

9.00 – 9.45 **Welcome and Introduction**

Valeria Lingua, Assistant professor of Urban & Regional Planning, Department of Architecture, University of Florence
Marco Bindi, Vice-President (Pro-Rettore) of the University of Florence

Saverio Mecca, Dean of the Department of Architecture, University of Florence

Pietro Rubellini, Director of the Metropolitan City of Florence
Andrea Simoncini, Professor of Constitutional Law, University of Florence, Coordinator of the Strategic Plan for the Metropolitan City of Florence

Silvia Viviani, President of National Town Planning Institute (INU)

Roberto Masini, President of the Association of Architects of the Metropolitan City of Florence (to be confirmed)

9.45 – 11.30 **Regional design and visioning in governance rescaling**

Chair: **Giuseppe De Luca**, Associate professor of Urban & Regional Planning, Department of Architecture, University of Florence

Introduction: visioning and designing in interactive governance, between soft and hard spaces for planning.

Valeria Lingua, University of Florence

Prepositions: Enhancing governance capacity in metropolitan regions through regional design.

Wil Zonneveld, Professor of Urban and Regional Planning, Delft University of Technology

The renaissance of big plans. The role of regional design

Alain Thierstein, Professor of Urban Development, Faculty of Architecture, Munich University of Technology

11.30 – 12.00 Coffee Break

12.00 – 13.00 **The context: Governance rescaling across Europe**

Chair: **Valeria Lingua**, University of Florence

Governance rescaling and strategic planning in England

Graham Houghton, Professor of Urban Planning, School of Environment, Education and Development, University of Manchester

Territorial administrative organization and spatial planning from regional to soft spaces in Portugal

João Pedro Costa and Cristina Cavaco, Assistant Professors of Urbanism, Faculty of Architecture, University of Lisbon

13.00 – 14.30 Lunch

14.30 – 16.00 **Effects of governance rescaling in spatial planning practices**

Chair: **Wil Zonneveld**, Delft University of Technology

The strategic role of spatial planning in redefining scales and governance structures in Denmark

Daniel Galland, Associate Professor of Urban & Regional Planning, Department of Development & Planning, Aalborg University

Strategic planning in Russia: From national to local government approaches

Limonov Leonid, Director of ICSER “Leontief Centre”, NRU HSE, St. Petersburg, Russia

The institutional reforms on spatial planning for French metropolitan cities and agglomerations

Anna Geppert, Professor of Urban & Regional Planning, University of Paris-Sorbonne, France. President of AESOP, the Association of European Schools of Planning

16.00 – 16.30 Discussion

16.30 – 18.00 Coffee break

Visioning in governance rescaling: Florence

Chair: **Saverio Mecca**, University of Florence

Introduction

Luigi Dei, President (Rettore) of the University of Florence

Representing and communicating the metropolis: Florence

Fabio Lucchesi, Associate professor of Urban & Regional Planning, University of Florence

Aim of the conference

The conference SHAPING REGIONAL FUTURES: DESIGNING AND VISIONING IN GOVERNANCE RESCALING discusses the role of regional design and visioning in the formation of regional territorial governance. The conference aims at an increased understanding of how practices, engaged with the imagination of possible futures, support the creation of institutional capacity for strategic spatial planning at regional scales.

Governance rescaling in spatial planning is about shifts in organisational and institutional structures that are the result of a search for efficiency, effectiveness and legitimation in planning. Such processes of rescaling take place in many European countries and find different expression: the amalgamation of municipalities, the definition of new urban/metropolitan authorities and the emergence of new commitments to co-operate in planning, for instance. Rescaling of governance has generated considerable debate, particularly in metropolitan regions, leading to a wide set of questions. Who is best equipped for regional planning? How can planning actions across administrative boundaries be motivated? How can they be legitimated?

Regional design concerns the imagination of spatial solutions for problems in particular regions and the use of these visions, even in the form of metaphors, for planning purposes. Both processes are deeply engaged with specific spatial environments and their distinct geographies. Both processes have territorial implications. They challenge formal planning by leading to the definition and re-definition of boundaries, often around non-statutory areas.

Focus of the conference SHAPING REGIONAL FUTURES is the role of designing and visioning in processes of governance rescaling. It investigates two prepositions: 1) by recognising and understanding spatial dynamics within metropolitan regions, regional design and visioning, connecting administrative boundaries; 2) the imagination of possible spatial futures through regional design and visioning contributes to shared planning agendas which seek connect broader planning objectives with concrete spatial interventions.

Discussion around these two prepositions is expected to lead to a more profound understanding of how design, visioning and governance rescaling are interrelated. Practices of regional design and visioning differ across European regions depending on planning cultures and planning systems as well as shared histories of regional governance and capacity building. This is why the conference seeks a comparative perspective: a variety of governance rescaling processes and of design and visioning practices are discussed.
